‘A History of Bangladesh’ by Willem Van Schendel
Cambridge University press, Cambridge, 2009
DOI: 10.3329/jbayr.v1i1.6952

‘A History of Bangladesh’ written by famous author Willem van Schendel is a narrative that moves about the amazing twists and that have produced contemporary Bangladesh Society. In this book, the author tried to show, how to write a history poverty stricken and overpopulated Bangladesh, a country that after the British left India in 1947 first became (east) Pakistan and officially exists only since 1971. In its five parts that covers twenty two chapters, the book depicts a brief and selective history of Bangladesh.

In part I, van Schendel expands on Richard Eaton’s idea of Bengal as a region of ‘multiple frontiers’ such as land-water frontier (north-south), the ancient cultural ‘Sanskritic’ frontier (west-east), the agrarian, state, Islamic and Bengali language frontiers etc. Part II describes how, over the last few centuries, these age old trends (developing its distinct identity) encountered middle-range ones, especially foreign (British) rule and its lasting effects, colonial conflicts, partition of Bengal during the foreign role. Almost two thirds of the book (part III-V) concerns the recent ‘high politics’ of famine of 1943, the partition of British India, the Bangladesh liberation war, the creation of the national cultures of, consecutively, ‘Bengaliness’ and ‘Bangladeshiness’, the tense relationship with India, military role (1975-1990), cold war politics and so on.

What I find missing in part I of the book, however, is a specific discussion of what can be labeled the ‘imperial intellectual frontier’, which since the 19th century undeniably has been the most crucial frontier. Besides, on the whole, the author does not explain how Bengalis created a liberal public sphere, in which processes of identity formation, rationalization and intellectual interaction between metropolis and colony come together. In writing this book, Van Schendel was very much selective in depicting the chronological development of Bangladesh highly depending on secondary data. In some cases, he failed to link up cultural development of Bangladesh.

In conclusion, the author deserves the appreciation for using easily understandable language in writing the book. Readers intended to know brief and selective history of Bangladesh can go through this book.

Authors Biography

Dr. Afroze Sultana Chamon is an Associate Professor of the Department of Soil, Water and Environment, University of Dhaka. She secured 1st class in both her B.Sc (Hons) and M.Sc from the Department of Soil, Water and Environment, University of Dhaka (DU). She has done her Ph.D from the University of Natural Resources and Applied Life Sciences (BOKU), Vienna, Austria. She has about 27 research publications in her credit. She is the former Scientific Officer of Aftab Bhamukhi (multipurpose) Farm Ltd. (Agri. Div.), Bhagalpur, Bajipur, Kishoregonj. She has also worked as research and teaching assistant in the University of Natural Resources and Applied Life Sciences (BOKU), Vienna, Austria.

Anna Maria Tammaro is Researcher at University of Parma (IT), Italian Coordinator of the International Master in Library and Information Studies (by distance) and of the Erasmus Mundus Master DILL. Main issues in teaching and research: Digital Library, Electronic publishing, Learning and Libraries, Internationalization and Quality Assurance. She is serving as Chair, IFLA Education and Training Section. She is also Board member of EUCLID.

ATM Shamsuzzoha has been working as lecturer in the Department of Islamic History and Culture, University of Dhaka, Bangladesh. He secured First class First position both in B.A (hons) and M.A programme. He achieved the ‘Brigadier Doctor Yunus Dewan Gold Medal’ for his outstanding performance in M.A programme. He has presented several papers at various national seminars and conferences. He has 04 papers in his credit. His research interest goes to socio-economic and cultural history of Bengal and India as well as Muslim theology and architecture.

Hamidul Islam is working as Lecturer in the Department of Islamic History & Culture, Shahazdpur Govt. College, Sirajong. He secured First class First position in M.A programme (Group C). He achieved ‘Dr. Ayesha Begum Gold Medal’ for his outstanding performance in M.A programme. He has presented several papers at various national seminars and conferences.

Haseeb Ahmad Piracha is Deputy Chief Librarian, Punjab University Library, University of the Punjab, Lahore, Pakistan. He has been IFLA Scholar and did a diploma from Asian Institute of Technology, Bangkok in library automation. He completed projects in Qatar and also in British Council. His core interest is in digital libraries. He established Information Resource Centre in Punjab University Library which provides online SDI service to researchers. He also supervises digital resources of Punjab University. Haseeb Ahmad is Erasmus Mundus Scholar 2009-2011 and is in the process of completing his Master’s in Digital Library Learning.

Md. Munir Rahman, Professor, Institute of Water and Flood Management, Bangladesh University of Engineering and Technology (BUET), Dhaka. His research fields are river channel processes, erosion management, ecosystem services of river and floodplain systems, and impact of climate change on river and floodplain morphology, sediment transport, Bridge hydraulics. His general research interests can be grouped into River channel processes; River training and bank protection; Ecosystem services of river and floodplain system, Indigenous approach on river and floodplain management; Bridge hydraulics and related problems. He has about 40 technical publications in these research areas, with many papers published in top international, peer-review journals. Recently, he is doing research for the development of low cost method for river erosion disaster mitigation through alluvial channel stabilization.

Dr. Md. Nadiruzzaman Mondol is an Assistant Professor of the Department of Soil, Water and Environment, University of Dhaka. Mondol secured 1st class in both his B.Sc (Hons) and M.Sc from the department of Soil, Water and Environment, University of Dhaka (DU). He has done his Ph.D
