

## College News

*Compiled by Md. Aminul Haque Khan and Rukhsana Parvin*

### CPD Programme

Continuing professional development is the process of life-long learning in practice. It helps the medical professionals to keep them up-to-date to meet the needs of the patient and health care services and to improve their knowledge, skill and attitude. In Enam Medical College total 15 seminars were held during the period of September to December 2014. Around 300 students, doctors and teachers attended each of these seminars.

### CME Programme

To enhance communication skill in teaching and learning and efficiency of judgment of teachers, especially the freshly appointed teachers in the assessment in examinations and to improve medical teaching standard of teachers by refreshing knowledge, skill and attitude, continued medical education (CME) programmes are very much needed. It is also essential to make them oriented with the updating of education system, teaching and research methodology and to share experience and views of senior faculties. In these perspectives, Medical Education Unit of Enam Medical College is arranging monthly teaching and learning sessions for all teachers of the college. All the teachers of the college actively participate in these sessions.
